With a thicker plate design and use of high purity lead, the Power Sonic PG series provides a longer design life for those critical standby power applications.

The long life lead acid battery has been specifically designed to offer superb high-rate discharge characteristics ensuring reliable performance in a number of applications including UPS, telecoms and emergency lighting. The rugged impact resistant battery is available to UL94:V0 flame retardant rating.

Power Sonic's state-of-the-art manufacturing and process control combined with meticulous quality assurance procedures guarantee consistent and dependable performance.

FEATURES

- Long service life VRLA battery
- Superb high-rate discharge characteristics ensures reliable performance in UPS and telecom applications
- Absorbent Glass Mat (AGM) technology for superior performance
- Lead-calcium alloy grids and the use of high purity lead account for superior shelf-life characteristics, permitting storage for extended periods of time
- Thick plate design and efficient gas recombination that yield a design life expectancy of up to 12 years in standby mode.
- Proven valve regulated technology that guarantees safe operation without maintenance
- Rugged impact resistant ABS case and cover
- UL94:V0 flame retardant available on request
