Engineered with an innovative tubular plate design, Power Sonic PS-OPzV valve regulated lead acid batteries provide greater capacity and enhanced cycle life.

The OpzV batteries have been specifically designed for longer life, greater reliability and strong resilience to high temperatures making them ideal for critical power applications and energy storage.

The rugged design and use of gel electrolyte makes them safe to use and maintenance free. A wide capacity ranging from 200ah to 3000ah combined with a design life of up to 20 years makes the PS-OPzV series one of the most popular choices for critical utilities and infrastructure applications.

FEATURES

- Deep cycle gel battery
- Thixotropic gel electrolyte for enhanced performance
- Specifically engineered for deep cycling applications
- Better recovery capabilities from deep discharge
- Superior cyclic life to AGM technology
- Power/volume ratio yielding unrivalled energy density
- Proven valve regulated technology that guarantees safe operation without maintenance
- Rugged impact resistant ABS case and cover
